F.D.A. Commissioner

Parklawn Bldg., 5600 Fishers Lane
Rockville, MD 20857

Dear Mr. Friedman,

I am writing to you to beg you to put a stop to cruel animal tests of pharmaceuticals. There are so many other ways of testing products, such as In Vitro tests. If the FDA would stop requiring animal testing, then perhaps the pain & fear that innocent animals are suffering in laboratories all over this country would stop. Please help put an end to obsolete animal testing.

Thank you so much,

Jenny Stein
